Old Business:

1. Discussed how well the First Open House went and how good the attendance was. More people were there than expected. For the next one post more on social media sites and the city website. Possibility of having the Open House Quarterly. Make sure to send minutes to Code 2
2. Working on an Attendance policy for Planning Commission Members. John is working on a draft, and we have received a copy of that draft. Will discuss more at next meeting.
3. There is a Training Session coming up in Tulsa Sept 13-15. It would be good for someone from Planning Commission, CEDA to attend. Misty Rollins will probably go and maybe John Richman.
4. Great response from the people that attended the Open house about a possible Farmers Market in Cache. Misty went to a Conference and got lots of information. Also still getting more feedback from Citizens

New Business:
